PROFILE

DevOps Engineering student with hands-on experience in Linux, Windows Server, networking, Docker, Kubernetes, Git, and CI/CD. I enjoy building reliable systems and improving delivery through automation, testing, documentation, and structured troubleshooting. I have worked with cloud-based pipelines on AWS EC2, Jenkins, GitHub Actions, Maven, SonarQube, Nexus, and VPS deployments. Background in radiography with strong focus on safety, accuracy, service, and healthcare workflows. Seeking an internship in DevOps, IT operations, cloud, automation, and test-driven delivery within modern infrastructure team environments.
